

PUT YOUR EXPERTISE TO WORK HELPING CHILDREN AND FAMILIES

REGIONAL EARLY INTERVENTIONIST

Do you love talking about and interacting with very young children? Would you like to spend parts of your work day outside, driving the beautiful roads of Central Vermont? Does working as a member of a supportive, fun, creative team sound like the perfect job? Do you enjoy laughter in the workplace and the occasional special homemade treat? Are you looking for a year round job that includes getting health benefits, personal time and a 403B retirement plan? All this could be yours if you send us your letter of interest, resume and 3 letters of reference!!

Here are some specifics:

- Someone willing and able to work as a member of an inter-disciplinary team, in collaboration with area health, education and social service agencies
- Someone to identify families of babies and toddlers with special health and developmental needs
- Someone to develop and implement family service plans.
- Someone to conduct, and synthesize team members' input into, initial and ongoing developmental evaluations.
- Someone who can assure timely completion and documentation of developmental evaluations.
- Someone who can provide direct early intervention services and regular consultation to the Developmental Educator.

Do you have:

- Bachelor's degree in Physical or Occupational Therapy, Speech-Language or Communication, Social Work, Nursing, Essential Early Education, or other related field. Current Vermont certification, registration, or licensure in one of above fields?
- Three years direct experience providing developmental services to children under the age of three with disabilities or special health needs and their families?
- Working knowledge of health care, education and social service agencies and resources and parent and disability support groups in the Washington County region?

Please send your letter of interest, resume, three reference names and copy of any appropriate licensure/certification to:
