

Basic Specialized Care

Saturday September 26, 2015 9 AM - 3:30 PM

Central VT Medical Center – Conference Room #1

The purpose of this six-hour BASIC SPECIALIZED CHILD CARE ORIENTATION is to provide a foundation of information for those seeking to become specialized child care providers working in regulated child care. For parents under stress, quality child care with specific supports can help strengthen their family and promote their child's development. Specialized Child Care Status is designated in order to support and promote quality child care for-

- Children and families served by the Family Services Division of the Department for Children and families,
- Families experiencing significant stress in areas such as shelter, safety, emotional stability, substance abuse, and children's behaviors, and
- Children with special physical or development needs.

**CDA Areas #3 & 6; Core Knowledge Areas: Child Development,
Families and Communities, & Professionalism and Program
Organization**

There will be a half hour break for lunch so please bring a bag lunch or plan on using the cafeteria.

To register, please contact:
